EDUCATION

University of Michigan, Stephen M. Ross School of Business

Master of Business Analytics

Ann Arbor, MI

May 2026

- Relevant coursework: Business Analytics Consulting Studio, Data Exploration & Visualization
- MBAn Athletics Chair

University of California, Davis

Bachelor of Arts in Economics

Davis, CA

Jun 2025

- 3.89 GPA; Dean's List; Department of Economics Citation for Outstanding Performance
- Relevant coursework: Econometrics, Economics & Business Data Analytics
- UC Davis Men's Rowing

EXPERIENCE

Trak Software

Student Consultant

Ann Arbor, MI

Jan 2026 – Apr 2026

- Coordinated the collection, cleaning, and quality-control verification of usage data across 100+ client workspaces, then built and tested a gradient-boosting churn and account-health model in R (0.91 AUC, 5-fold cross-validation) to flag at-risk accounts and guide client intervention.
- Rebuilt executive reporting in Excel, replacing hardcoded outputs with dynamic dashboards and documentation that leadership relied on in quarterly business reviews.

Associated Students, UC Davis (ASUCD)

External Affairs Director

Davis, CA

Jun 2024 – Jun 2025

- Analyzed engagement and attendance data across 25+ partner organizations to identify trends and focus resources on the highest-impact programs for a 7,500+ member community.
- Managed a departmental budget and coordinated 25+ partner organizations to plan and deliver a 300+ attendee community event.

University of California, Davis

Campus Sustainability Data Analyst

Davis, CA

Jun 2023 – Jun 2025

- Synthesized structured ratings and open-ended responses from a survey of 10,000+ respondents using descriptive statistics and visualizations (bar charts, distributions) in Tableau, translating findings into written summaries for institutional leadership.
- Benchmarked campus performance against the STARS framework across 60+ credits, developing baselines from complex data sources, conducting a gap analysis, and presenting prioritized recommendations to leadership.

Rituals Cosmetics (retail e-commerce)

E-Commerce Intern

Dubai, UAE

Jun 2024 – Aug 2024

- Evaluated delivery workflows through variance analysis in Excel, identifying cost-driving bottlenecks and recommending process improvements that cut fulfillment times 15%.
- Worked with operations teams to standardize recurring delivery metrics and reporting, improving data accuracy and consistency.

E-Source

Data Intern

Boulder, CO

May 2023 – Oct 2023

- Designed and maintained a relational SQL database consolidating rebate data from 40+ utility programs, running A/B tests on client messaging across 25+ clients to identify the highest-uptake strategies.
- Conducted data quality-control checks verifying rebate program accuracy for 30+ utility clients during a data portal rollout, safeguarding data integrity across analytics tools.

PROJECTS

- **Tunisia Financial Market Study:** Authored an in-depth study of Tunisia's financial markets, analyzing exchange-rate dynamics, interest-rate differentials and uncovered interest parity, and equity-market performance (MSCI returns, Sharpe ratios, and US–Tunisia return correlation) to build a risk-weighted case for portfolio diversification.
- **Champions League Player Clustering (self-directed):** Built a k-means clustering model in R (tidyverse, ggplot2) to segment players by performance metrics across PSG's Champions League campaign, grouping the squad into four distinct performance profiles and isolating standout attacker Ousmane Dembélé as a single-member cluster, quantifying how far his output separated him from the rest of the team.

SKILLS & ADDITIONAL

Tools: R, Stata, SQL, Excel (advanced), Python (pandas, scikit-learn), Power BI, Tableau, Word, PowerPoint

Analytics: Econometrics & regression analysis, statistical modeling in R, relational database design & SQL, hypothesis & A/B testing, data aggregation & quality control, variance analysis, benchmarking, requirements gathering & documentation

Languages: Fluent in English, Hindi/Urdu, French, and Arabic
